

The 2027 Hosta Tissue-Culture Liner Collection

"Where the sun don't shine, these do."

Westcan Greenhouses is pleased to offer 24 proven Hosta varieties — started from tissue culture and grown on as well-rooted 72-cell liners for the 2027 season.

Every liner begins as clean, true-to-type stock — uniform, vigorous and free of viruses such as Hosta Virus X. These shade-garden staples bring bold foliage in blues, golds, greens and crisp variegation with dependable perennial vigour, from award-winning miniatures to true giants.
